Developed By
Cosmetic Dentist

How We Test
From formulation to production, each step of the process is carefully monitored and evaluated by our team of experts.

Clear Results
Our advanced formulae are designed to deliver visible and measurable improvements, giving you the confidence to smile brighter.

100% Effective
Our commitment to delivering exceptional results shows every aspect of our product development process.

Whiten With Violet Blanc Beauty, Not Gimmicks

→ Hydrogen Peroxide
Glycerol
Deionized Water
Coconut
Propylene Glycol

Active Ingredients
Hydrogen peroxide is a well-known ingredient in tooth whitening products due to its ability to break down stains and lighten the color of teeth. It works by oxidizing the pigmented molecules in the teeth, effectively removing surface stains and revealing a brighter smile.

On July 13, 2024, in Butler, PA, President Donald Trump survived an assassination attempt at a campaign rally, standing defiant with a raised fist, urging his supporters to “fight”—a moment of unyielding grit that inspired the Fight, Fight, Fight Limited Series.

Turned from ink dot certified maple in our TG199 turn model, this powerhouse delivers explosive pop at the plate, channeling the strength of that historic day. Hand-sanded and finished with a bold design that captures the fire of July 13, this bat reflects our commitment to quality and legacy. Swing with the same resilience that defined that moment—Be Offensive, be unstoppable.

WHAT IS THE SPLITGRIP?

The Split Grip Trainer revolutionizes your training sessions by offering three functionalities in one tool! Separating the hands increases barrel control, improves bat speed, and prevents rolling over at contact. Hold it traditionally for split grip training, choke up to the top knob with both hands for short bat work, or use with one hand for single-handed drills. The extended knob enhances understanding of the swing plane during these drills that require minimal coaching. Crafted from pro-grade wood, this bat is suitable for all training methods including tee work, soft toss, and live BP, and machine work with real balls.

MULTIPLY YOUR TRAINING

OUR STORY

Introducing The Split Grip Trainer! A Patent Pending handle designed by professional coaches to promote efficient movement patterns throughout the swing. 3 bats in 1! Split, Short Bat, One Hand. Two young entrepreneurs, Trevor & Cory lead the charge for Split and we can't wait to have you on this journey with us!

Cory and Trevor met while playing on the Rockies Scout team in the fall of 2012. Being the only two catchers and the only players from southern Colorado, they spent a lot of time in the car driving to Denver for games and practices. After both of their collegiate careers came to an end, they got back in touch and started supporting each other's businesses. After Trevor made a joke to Cory about a new training bat, they explored the world of splitting the grip during the swing. The rest is history!

Cory Voss is a former Division 1 All American who was drafted by the Colorado Rockies and the Washington Nationals. Currently, Voss is a professional baseball consultant and owns a training facility called The Baseball Mill in Pueblo, Colorado.

Trevor Goldberg played collegiate baseball and then directed an organization of 11 teams. Trevor has also been handcrafting wood bats since he was 15 years old and has owned Berg Bat Company ever since.
